MANAGEMENT DISCUSSION AND ANALYSIS

Overall review, industry Structure and Developments:

The scenario of the stationary industry is changing from time to time as change in the Indian Economy level. However, at present small scale stationary makers are not often able to protect themselves against the fluctuations in the market prices. In addition, with a lower degree of investment in stationary making infrastructure in these countries, makers face lower switching costs. Thus, your Company is in the process of changing its activities to give boost to its stationary making & export activity. The stationery performance was affected on account of building focus and trying to build the business on a few states rather than on a pan- India basis, which was based on inputs from a leading consultancy firm which lowered off take amongst our distributors as operational modalities were carried on. This trend might continue for a couple of months but then the stationery business should be on track. Your company expects double digit growth for stationery business in the coming year as the outlook on exports continues to remain stable.

Opportunities and Threat

Opportunities

- Large, Potential Domestic Market
- Market is gradually shifting towards Branded Stationary.
- Increased Disposable Income and Purchasing Power of Indian Customer opens New Market Development.
- Emerging Retail Industry and Malls provide huge opportunities for the Stationary segment of the industry.

Threats

- Competition from other developing states of the Country
- Continuous Quality Improvement is need of the hour as there are different demand patterns all over the world
- Elimination of Quota system will lead to fluctuations in Demand.
- Geographical Disadvantages.
- International labor and Environmental Laws.
- Increase in rate of service tax from 10 percent to 12 percent has given the intense competition in the Industry. Increased competition also translates into serious pressures on cost. These added to soaring commodity prices and volatility of exchange rates pose a serious challenge to cost management.

Segment wise Performance

The Company has identified its activities as single segment. Hence, the Company's performance is to be viewed as a single segment company operating in stationary industry.

Out Look

With the increasing trend in the stationary and export of variety pens, erasers, and pencils and with the implementation of expansion project in stationary making business, it will provide new dimension to the working. The Company has made the four times profit during the year & the Company has also expanding its business by exporting materials to other countries.

Internal control System

In any industry, the processes and internal control systems play a critical role in the health of the Company. Company's well-defined organizational structure, documented policy guidelines, defined authority matrix and internal controls ensure efficiency of operations, compliance with internal policies and applicable laws and regulations as well as protection of resources. Moreover, the Company continuously upgrades these systems in line with the best available practices. Internal Auditors independently evaluate the adequacy of internal control systems. Their observations and recommendations are discussed by the Audit Committee to ensure effective corrective action. The internal control system is supplemented by extensive internal audits, regular reviews by management and adherence to standard policies and guidelines to ensure reliability of financial and other records. The management information system provides timely and accurate information for effective control. Rigorous business planning as well as expense, capital and manpower budgeting processes ensure that progress is monitored against targets, and control is exercised on all major expenses.

Human relations

Human Resources (HR) are an integral and important part of any organisation. The Company has put in place sound policies for the growth and progress of its employees.
